

ROOSEVELT'S BUDGET NEEDS

927 MILLIONS RECOMMENDED FOR FARMS

Washington, April 20 (AP)—The House appropriations committee recommended today that Congress supply \$227,390,548 to the Agriculture Department for the next fiscal year.

Of the total, \$220,000,000 was tagged for the Agricultural Adjustment Administration.

The committee chopped \$578,467 from the amount asked by the budget bureau, but the department still would receive \$143,022,149 more than its appropriation for the present year.

To meet the "present emergency" in the so-called "Dust Bowl" area, the committee stipulated that up to \$500,000 should be made available immediately from funds previously appropriated for soil conservation work.

HUGE ROAD FUND
The bill would provide \$225,000,000 for the demonstration projects and other activities of the Soil Conservation Service which begins July 1. This was \$228,485 less than the appropriation for this purpose in the current fiscal year, \$470,000.

It was recommended for "conservation and use of agriculture land resources."

Funds for the Bureau of Public Roads were increased \$110,000,000 over those of the present year, to \$178,500,000. The increase included two new items, \$100,000,000 for elimination of grade crossings and \$5,000,000 for federal aid secondary or feeder roads.

For the first time in the history of the increase, \$80,000,000 was earmarked for the regular federal aid—primary—highway system.

CROP PAYMENTS
The measure carries \$1,000,000 for the Farm Credit Administration and an authorization for the Federal Farm Mortgage Corporation to spend \$10,000,000 on administrative expenses.

Other items included \$18,919,773 for the forest service; \$4,818,271 for the bureau of plant industry's work of exterminating plant diseases; \$5,500,000 for the bureau of plant quarantine; and \$2,181,850 for the bureau of agricultural economics.

The total recommended for the Agriculture Department would include \$500,000,000 for crop benefit payments.

COURT PEACE BY WOODPECKER
Washington, April 20 (CNS)—Warning that the battle over the President's Supreme Court plan may split the Democratic party for years, Representative John McCormack (D., Massachusetts), in a speech in the House today pleaded for a compromise.

McCormack proposed additions of two or more justices to the Supreme Court, together with a constitutional amendment fixing the retirement age at 70 or 75.

Asks Protection For State Workers
Protection for state department employees and those of the various state boards who have worked for five years was urged today by Senator Arthur W. Hodge of New York, in a hearing before the legislative committee on ways and means.

Senator Hodge urged the committee to act favorably on his bill which provides that no board officer or state department employee who has worked for five years or more shall be removed without a hearing. The bill has already been favorably reported by the committee on State Administration.

Federal Charges Face Melrose Man
Two indictments on federal charges against Ray L. Colborne, Melrose, disbarred Boston attorney, were returned by the grand jury to Judge Edwin H. Sawyer in Federal court today.

These charges concern his transporting stolen securities from San Antonio, Texas, to Boston, and with using an accessory after the fact in the transportation of unlawful securities in interstate commerce.

President Demands Budget Be Balanced in 1938

DEFICIT UP \$309,000,000

Washington, April 20 (AP)—Following is the text of President Roosevelt's relief message to Congress today:

To the Congress of the United States:
In my budget message of January 4, 1937, I said that I would transmit at a later date an estimate of appropriation for work relief for the fiscal year 1938. In connection with this estimate it is desirable to review our present fiscal situation.

Budget estimates made last December indicated that the deficit for the current fiscal year of \$238,000,000. They also indicated a net surplus for the fiscal year 1938. Budget estimates made last December indicated that the deficit for the current fiscal year of \$238,000,000. They also indicated a net surplus for the fiscal year 1938.

Income Tax Drop
Since then, however, new factors have so altered the fiscal situation as to require revised estimates of receipts and expenditures. There is a net deficit for the current fiscal year of \$309,000,000.

On the basis of these estimates, therefore, an appropriation for work relief for the fiscal year 1938 of any sum less than \$1,317,000,000 would leave a deficit for that year.

FUTURE FISCAL POLICY
I emphasize here what I said last January with respect to our future fiscal policy:

"Expenditures must be planned with a view to the national needs; and no expansion of government activities should be authorized unless the necessity for such expansion is clearly demonstrated and funds are available to meet the need."

In other words, if new legislation imposes any substantial increase in expenditures either by the expansion of existing or by the creation of new activities, it comes a matter of sound policy to estimate the probable revenue sufficient to provide for the additional cost.

Since the present session of the Congress began, the new tax law indicates that income taxes will produce \$287,000,000 less than the former estimates for the fiscal year 1937.

The revenue for the first nine months of this fiscal year indicates that other revenue will be \$287,000,000 less than the former estimate, which is due in large part to the reduction in expenditures by numerous lawsuits against the government.

In view of the reduction in revenue it became apparent that every effort should be made to offset this loss as far as possible by reduction in expenditures.

To this end I have directed the heads of various government activities to make a careful examination of their expenditures, requirements for the last three months of the present fiscal year, with a view to making substantial savings by elimination or deferring all expenditures not absolutely necessary during this period, the money to be saved to be used for the balance of the year.

Information thus far available indicates that the savings will probably be \$280,000,000 below the estimate of last January.

Deficit Increases
The amount of the net deficit for the fiscal year 1937 was then estimated at \$238,000,000. The increase of \$239,000,000 over the January estimate.

FISCAL YEAR 1938
For the fiscal year 1938 it is now believed that receipts will be \$287,000,000 less than was anticipated last January, the reduction of \$410,000,000 in the estimate of \$410,000,000 being slightly offset by increases in other receipts.

Pending the enactment of the new tax law, it has been impossible to make an accurate estimate of the estimate of expenditures for that fiscal year, other than for recovery and relief.

The revised estimates of receipts and expenditures for the fiscal year 1938 are here presented. They are estimated net deficit of \$309,000,000. There is included in the estimate the \$1,317,000,000 for work relief heretofore recommended.

I propose to use every means at my command to eliminate the deficit during the coming fiscal year.

I expect to accomplish this by (1) To withhold from appropriation for expenditures to be as far as possible with due regard to proper functioning of the various departments and agencies a substantial percentage of the funds available for that year.

(2) To increase the receipts of the treasury through the liquidation of assets of certain of the emergency agencies.

Balance Is Vital
I regard it as extremely important that we should achieve a balance of actual income and outgo for the fiscal year 1938, and I appeal to you to join me in a determined effort to bring about that result.

What I have said is predicated on two highly important conditions: (1) That the estimate of existing taxes which expire this year, the second is the maintenance of appropriations made at this session within the total of the budget estimate.

As increases in appropriations would of course nullify our efforts to prevent a deficit in 1938.

LEADERS GREET
D. A. R. GROUP

By JANE EADS

Washington, April 20 (U.S.A.)—A group of leaders of the 44th Continental Congress, in the name of the Daughters of the American Revolution, in a letter to the group, called for a flag-draped casket for the body of the late President Franklin D. Roosevelt.

In a brilliant and colorful presentation, the group, led by William A. Becker, president of the group, and other national officers, presented a letter to the group, called for a flag-draped casket for the body of the late President Franklin D. Roosevelt.

From all parts of the nation, women whose heritage of patriotism is traceable to the men who helped for the freedom of the 13 colonies gathered.

Following impressive patriotic exercises and greetings extended to each distinguished personage as they passed, the group, led by William A. Becker, president of the group, and other national officers, presented a letter to the group, called for a flag-draped casket for the body of the late President Franklin D. Roosevelt.

Other speakers were Senator A. Harry MacLean, of New Jersey, who read the letter of the group, and an address on "Youth and the Future of Our Country" by Senator William W. Rorer, of New Jersey, who spoke on "The Future of Our Country."

While Mrs. Becker urged assistance in securing citizenship and greater in ways American in the country in our midst, Mrs. Becker urged that the illegal alien and those who are here for no good reason, we would defend our land and consequently have with legislation for this purpose.

OF REALITY

Special to the Boston Evening American

Washington, April 20—Proper neutrality measures and adequate national defense will keep America out of war, the Daughters of the American Revolution, in convention here, were told.

More than 500 members attended a meeting of the society's "committee on national defense," presided over by Mrs. Vinton East.

Prominent speakers were Dr. Thomas Healy, dean of the school of foreign service, Georgetown University; Theodore G. Holcombe, immigration restrictions; League of Boston; Robert Culland, of Ohio University, and Carleton Smith, traveler.

DEFENSE AND PEACE

Speaking of "national defense and peace," Dr. Healy said: "Innumerable substitutes for war and armaments are being proposed, including:

"The League of Nations, the

Kellogg Pact and conferences of all sorts."

While these plans might provide the solution in the future, he said, they are not effective today to the extent that any nation feels safe to rely on them and give up its military establishment. He said: "The present military policy must be based on present day realities."

"Only by knowing, understanding and restraining things which are likely to involve us in war can we keep out of war."

The three major factors which involved the nation in the World War, he said, were "defective foreign policies, unwise neutrality claims and lack of reasonable national defense."

ALIEN PROBLEM

Addressing the group on "Immigration and the alien" Holcombe said:

"The immigration problem is primarily economic. Can we expect to absorb, without affecting the opportunities of those here, the 25,000 or more job-seeking immigrants that may reasonably be expected each year under present laws?"

"Do we not forget that we have each year perhaps half a million boys and girls seeking work, over and above those needed for replacements?"

Immigration, he said, has been small since 1930, but he pointed out, that is temporary.

The alien criminal should be de-

"Provision should be made for deportation as a result of a conviction of a crime involving moral turpitude committed within five years prior to the institution of deportation proceedings, or for two or more separate convictions, even though imprisonment was for less than a year."

"The five-year limit would prevent taking up old offenses when an alien had since 'gone straight.'"

COUNCIL CHECKS UP ON LAND DAMAGES

Behind closed doors the Governor's Council today resumed its check-up on land damages and other awards made by the public works department.

The policy held good only for the hearing on the \$20,000 award for a taking in Newbury along the Newburyport turnpike, apparently, as the session today was made private by a vote of 4 to 1.

Those voting for open hearings were Lieutenant Governor Francis E. Kelly, Councilors Frank A. Brooks of Watertown and Charles J. O'Connor of Woburn, and being the day, Republican no voting. Those against were Councilors Daniel H. Conley and Edward T. Collins of Springfield, Democrats, and Eugene A. F. Burnett of Somerville and Edgar S. Lindsay of Brockton, Republicans.

Two councilors, Joseph B. Goodman of Quincy and Bayard Tuckerman, Jr., of Hamilton, both Republicans, were absent.

The immediate awards being investigated in the council are an award of \$50,000 to Coleman Construction company for granite at the Huntington avenue-Jamaica way overpass; two takings in Revere for \$10,000 each, one land owned by the Eastern Gas and Electric Company and the other by the Boston Gas and Electric Company, and a \$4375 taking in Millbury.

MR. EXTORTION IN GRAFT CASE

before a single justice, Judge Edward F. Hanly.

Giordano testified he was seated in big car with Miss Della Roddy on a cold morning in 1933, parked in front of the house in Walnut Hill road, Brookline, where she worked, when a Brookline police car pulled up behind.

"Giordano got out of the police car and put a flashlight on me," said the store clerk. "He asked what we were doing. Then he grabbed me by the collar and began pulling me out of the car. I said, 'What are you doing?'"

SAYS OFFICER RUDE

"I asked him what he was doing and for he replied, 'I thought you were pulling a car.' He was quite rude. He said the other officer was quite nice and he could smooth it out with him."

"They took us to the police box on Hammond street and Giordano said he was going to have me arrested. Miss Roddy remained in my car while I was at the box. Donovan was in the police car, right next to mine and not far from the box."

"Giordano told me he was going to call the wagon so he ran the box and I said, 'What for? I didn't do anything wrong.'"

"After the incident at the police box Giordano asked Miss Roddy to get into the police car and said the two officers would take her home. I asked her when they would please let me take her home and they finally said yes."

"When they finally let me go with Miss Roddy, one of the officers said we were not good company for each other and that we shouldn't see each other again. Then he told me to beat it."

We have been hearing a lot of talk lately about youth, and the problems of youth, and we have been pondering a few questions in connection therewith.

What is youth?

The dictionary says youth is "the state or condition of being young." That it is "the period of life between childhood and old age."

And young is "being in the early period of growth; having existed a short, or comparatively short time; not old."

Well, then, what is old?

Mr. Roosevelt, at 57, illustrates that it is 70. Mr. Roosevelt might be slightly vexed to learn that at 57 he is regarded by the men around him as 25 to 40 as quite old. Still, he can have the consolation of knowing that men of 70 who are viewing his going-on with some concern consider him the personification of impetuous youth.

At 70, Mr. Roosevelt will perhaps read of the passing of some friend of 71, and think to himself:

"Why, he wasn't so very old. Just a year older than I am."

Hard to Determine

Thus it is difficult to determine what youth is, and when it is.

We hear fellows of 35 saying they still are young men. As a matter of fact, according to the dope, their lives are half over. We know fellows of 60 who are younger in mind, and spirit, and even body, to-day than men of 30. So actual age has nothing to do with the matter. Perhaps it all goes back to the saying that a man is as old as he feels.

Half the memberships of the youth movements of the day, including those Young Republican and Young Democratic organizations, are made up of men who can grow long whiskers with a little perseverance. Maybe they start out with the movements when they really do have youth, and forget to quit when they reach the age of discretion.

The youth the world seems to be worrying about nowadays is represented mainly by the late teens, and the early twenties. This youth, whose problems so perplex us, did not cause the pioneer parents of this nation any more bother than the slight effort involved in yanking it out from under the covers at daybreak and chasing it out into the fields to work.

But of course times have changed since then, save perhaps in the more remote communities where they have yet to hear of the youth problem.

The youth problem as it comes to you, notices, is that youth wishes to live its own life. Youth's idea of living its own life is to do as it does.

gone pleasures, and let the parents pay the bills.

If youth wishes to live its own life, let it get out and live it, say we, but let it do it at its own expense. The human being is the only animal that keeps leaning on its parents after it is old enough and strong enough to get out and hustle for itself. This is because other animal parents are too smart to stand for any leaning after a certain period.

We have a world of sympathy with the longings and aspirations of youth. But we contend that youth ought to have a little sympathy with the longings and aspirations of its elders. If it did, there would be no youth problem.

Youth is inordinately selfish, and ruthless. Youth thinks only of itself.

Maybe you have youth around you. Does youth ever ask you how you rested last night? How you feel? Is your headache any better? Are you troubled? Can it do anything for you? Well, maybe in your case, it does. Then you are among the blessed, and probably have no youth problem.

When youth itself gets a stomachache, it hollers blue murder. It wants plenty of attention. Youth has little capacity for physical suffering in itself, and only remote sympathy for suffering in others. Youth is a remarkable abject animal. It always has an excuse for its shortcomings and mistakes, and usually on the ground of youth.

Youth a Knocker

Youth is envious, and a knocker. It generally has some criticism of every success. It seldom accords its parents credit or admiration for what the parents may have accomplished in the world, though it is eager to pounce on, and not infrequently quickly dissipate, their accumulations in worldly goods.

We might say we have arrived at the unhappy conclusion that youth is a nitwit, but we could not say so without originality for that discovery. Long, and long ago, a profound man remarked:

"Young men think old men are fools, but old men know young men are fools."

Anyway, we realize that whatever may be wrong with youth, it is something youth will get over. The surest thing you know is that youth will recover from youth, and the only thing about youth that really worries us, is that we no longer have it.

As Mr. Coleridge once said: "Nor carest this body for wind or weather."

When youth and I lived in it together.

Mr. Coleridge said what folks call a mouthful.

Want Ad? Dr. Angell Asks Job

Detroit, April 20 (INS)—Yale University's president today was "looking for a job," he said.

"In fact, any job will do," added Dr. James Rowland Angell, 68-year-old educator, on the eve of his retirement from Yale after 18 years at the university.

"Are you serious?" he was asked.

"Never more serious in my life," Dr. Angell replied.

"What type of job do you have in mind?"

"Any job that will pay money," answered the educator.

Then, he continued:

"I suppose you would like to know why I want a job, wouldn't you, your man?"

After a pause he answered his own question:

"Well, I have a large number of dependents, children and grandchildren."

Dr. Angell, making a tour of Mid-Western states addressing Yale alumni groups, was asked for permission to quote him regarding his job hunting.

"Sure, you can quote me," he declared. "Everybody knows I am looking for a job."

O'DEA ACCIDENT 'ENDS' AFTER LONG WAIT

Summoned by Governor Hurley, who was "too busy to see him," Deputy Superintendent John T. O'Dea appeared at the State House today to answer to a statement attributed to him that "not even the Governor could fix Boston's law-enforcing repulsions."

Kepi waiting outside the Governor's office for three-quarters of an hour, the police official finally conferred with Paul A. Ryan, assistant secretary to the Governor, room 364 at the State House.

His conversation, which lasted more than a half-hour, was taken down by a stenographer and Ryan submitted the transcript would be given to the Governor.

Although Ryan said he had been delegated by the Governor to confer with the deputy superintendent because the chief executive was "too busy to see him," it was Governor Hurley, however, who later told reporters:

"The incident is ended."

Ryan clarified the statement to a great extent when he told reporters that Deputy Superintendent O'Dea denied what had appeared in the newspapers relative to his statement concerning the governor.

Freeman's counsel, Attorney Joseph Klarfeld, visited the Brighton police station this morning and confirmed the prisoner's story of having been "on the spot."

"I took the boy to Brookline police last Wednesday, the day before Dickens was shot," Klarfeld said. "He told authorities how he had been threatened by Power and Dickens."

"He also told them how his wife had been kidnapped. That showed that he was 'on the level.' He was not only trying to save his own life, but the lives of others who might have been victims of these men."

Search for the youth's vanished wife, blonde Mary Ruth Freeman, and her companion, Sidney Power, meanwhile concentrated in Greater Boston on police belief that they have not yet left this section.

BRITISH SPANISH BLOCKADE

By the Associated Press
A British freighter—the Seven Seas Spray—today ran the Spanish insurgents' attempted blockade and carried a week's food supply to the inhabitants of insurgent-held Bilbao, capital of northern Spain.

The international patrol of Spain's coastal waters and boundaries went into effect last night, but it was beset by the deep volunteers and munitions from Spain.

For the ninth consecutive day, Madrid felt the force of steady insurgent shelling, which government authorities said took "many victims." Projectiles smashed into the following statement by Edward G. Woods, general counsel for the Hearst newspaper:

"Neither Mr. Lynch nor Mr. Armstrong was discharged from any union activity, but the big point in our appeal from the decision of the National Labor Relations Board was the constitutional right of the Wagner Labor Relations Act.

The Supreme Court of the United States has decided the constitutionality of the act, and, to our view, we as good citizens, will abide by the ruling, pending dispute involved does not justify employment a man whose labor board has ordered reinstated."

Der Fuehrer's Birthday

Hitler Eclipses Kaiser's Glory

Berlin, April 20 (AP)—The third Reich celebrated Adolf Hitler's 45th birthday today with a military display that eclipsed the Kaiser's parades.

Der Fuehrer's pride in Germany was shared by high Nazi aides and by scores of high officers of the old imperial army, occupying places of honor in the official reviewing stand.

Hitler's arm was raised time after time in the Nazi salute of 14,000 soldiers, 1000 horses and 600 motorized war machines passed before him.

Besides him, their faces beaming, were his highest lieutenants: Colonel General Hermann Wilhelm Goering, War Minister General Werner von Blomberg, Army Chief of Staff Colonel General Werner von Fritsch, and Chief of Admiralty Admiral Erich Raeder.

CROWDS LINE STREETS
The aped helmets and imperial uniforms of the wartime army commanders contrasted sharply with the Semtex-decorated Nazi uniforms of the Hitler aides.

When the "Goering" regiment passed in smart, goose-stepping review, Colonel-General Goering advanced to a position beside the Reichsbanner and joined in Hitler's salute.

Immense crowds of citizens lined the streets to watch the parade. They applauded vociferously as squadrons of war planes roared overhead and gave special cheers to an assembly of 275 two-man tanks which rushed past.

Foreign diplomats, including United States Ambassador William E. Dodd, turned out en masse for the ceremonies, with their embassy staffs.

RECEIVES CONGRATULATIONS
Before the parade started Hitler had received again the salute of his private Schutz Staffeli bodyguard. Significant in the ceremony was the presence of an active member of the Austrian cabinet—Dr. Edmund Glaser-Horstenau, minister of the interior.

Among the earliest callers to congratulate Der Fuehrer was Dr. Paul Joanne Goette, minister of propaganda, and Julius Streicher, publisher of the anti-Semitic newspaper, "Der Sturmer."

WIDOW FOUND; RETURNING TO MARSHFIELD

A telephone call today cleared up a mysterious whereabouts of Mrs. Julia Ewell of Marshfield, and alluded all fears for her safety following the death of her husband last Friday.

Her husband, Foster Ewell, was found dead of monoxide gas in his car and attempts to locate his wife since that time had been unsuccessful.

White Police Chief William H. Pratt of Marshfield sent out a message for Mrs. Ewell, she telephoned the undertaking establishment in Marshfield where her husband's body lay waiting to be buried.

According to Ernest Farrell, the undertaker, Mrs. Ewell said she was in Boston but would call there to claim the body.

She also requested that Farrell inform Chief Pratt that she wished to speak to him. She did not disclose the nature of this conversation.

U.S. TO USE CAR
Farrell also told Chief Pratt that Mrs. Ewell inquired about the addition of the automobile, in which her husband was found, and she wanted to use it. The chief said he would also claim the body.

Mr. Ewell was last seen in her husband's car the day before he was found dead, a suicide, according to the medical examiner, J. J. Lashbury.

Low the car was returned to the big garage still remained a mystery to Chief Pratt. In searching house today, the chief said, he had a letter that Pratt by his name.

ITEL TO WIFE
The chief explained that the pilot had bolted her position in the wing seat.

In a statement to the press, Lashbury declared he considered the logical statement to initiate the move because in his own disquietude of the matter, Lashbury exhibited a "warm feeling that such a conference would be bound to achieve important objectives such as halting world disarmament."

Lansbury visited Roosevelt in the United States last summer.

State Department Heads Favor Drive for Peace

Washington, April 20 (US)—An open declaration of America's willingness to participate in a world military and economic disarmament conference was made by Sumner Welles, assistant secretary of state.

Welles told the Daughters of the American Revolution the administration had "and would continue to signify our willingness to cooperate in concerted efforts to obtain the reduction and limitation of military and naval armaments."

Officials said the speech was prepared before Welles learned of Chancellor Hitler's peace move.

BOSS CHANGES HIS OPINION ON POISON EFFECT

Dr. William F. Boon, Harvard's famed toxicologist, admitted today in official Court that he has changed his opinion in the last four years about the fatal consequences of cyanide.

Four years ago, in the trial of Mrs. Jeanne Costello, acquitted of poisoning her husband, Captain William J. Costello, Dr. Boon testified as a government witness that the mere finding of the acid in a body is sufficient evidence that the victim died of poisoning.

Today he reversed his stand, the finding at the trial of Stephen L. Mabey that finding the acid in the blood stream is not necessarily proof that the death was caused by cyanide-poisoning. Mabey is charged with the murder of Mr. Mildred House of Dorchester by poison.

"You have changed your opinion," challenged Assistant District Attorney William Doyle.

"Yes," he answered. "When did you come to this conclusion?"

"Soon after the Costello trial," he declared.

Dr. Boon further testified that was his opinion, upon examination of the body of Mrs. House that a did not die of cyanide poisoning, but that the cyanide found in her body was not a contributing factor to her death.

Attorney John M. Boyle, counsel for Mabey, had produced Dr. Boon as a witness in the hope of disproving the state's content that the hydro-cyanic acid found in the blood stream was a fatal mortal poison.

18th DAY OF TRIAL
Dr. Boon testimony continued the morning session of the 18th day of the trial.

The defense maintains that Dr. Boon died of alcoholism.

All-Star Cast
is here

More men...more women...more children follow the All-Star Cast than any other group of entertainers in the world!

No time for "best-sellers", no time for other pet interests when Puck-The Comic Weekly arrives at the homes of America's millions. Then, to adult as well as young folk there's only time for the absorbing pages of laughs, loves, thrills and tears as portrayed by the All-Star Cast of Puck-The Comic Weekly.

Retailers know it, advertisers base record-making selling plans on it, and eminent statistical authority authenticates it. The All-Star Cast in Puck-The Comic Weekly, distributed through the 17 great Hearst Sunday Newspapers faces more men, more women, more children than any other group of entertainers in the world.

And these millions are reading millions... page-by-page readers of advertising, as well as readers of Puck's compelling cast of characters. This is verified by exhaustive statistical

survey, demonstrated by the record sales volume developed for Puck's advertisers. With few exceptions—THE WHOLE FAMILY READS THE WHOLE ISSUE of Puck-The Comic Weekly, INCLUDING THE ADVERTISING. How Puck's millions read, how many there are, who they are and the level of their immense annual income is reported, following an extensive investigation, by Dr. Daniel Starch, distinguished director of the research organization bearing his name.

THIS IS LIFE BY

Robert E. Rogers

...people of Vermont, the Green Mountain State, are reputedly and loyally Republican. A break in the record since the Civil War, apparently, desire music with their meals—or, at any rate, music.

The other day Vermont's governor, George D. Aiken, appointed a commission of five to "create or uncover some spirited state song by next October. Vermont has no ballad of its own." The quotation is from the Associated Press.

It strikes me that the Vermonters ought to have thought of that need back in the days when Rudyard Kipling was living in the state and for the purpose of the name trade and for the purpose of the name trade.

That was the Vermonters' thought off his feet and went home to Sussex. New York Fails to Find New Song to Fill It

That is the state of affairs in the state of New York. A year ago the legislature of New York decided to create a commission to find a new state song to replace the old "I Love My Country."

The commission has been working for some time, but has not yet found a suitable song. The commission is made up of five members, including the governor and four other prominent citizens.

The commission has held several public hearings and has received many suggestions. However, none of the suggestions has been deemed suitable by the commission.

The commission is now in the process of reviewing the suggestions it has received. It is hoped that a suitable song will be found by the time the commission's report is due next October.

The commission is also working on a new state motto. The old motto, "Excelsior," is being replaced by a new one that is more fitting for the state of New York.

The commission is also working on a new state seal. The old seal, which was designed by John Galtworthy, is being replaced by a new one that is more modern and more fitting for the state of New York.

The commission is also working on a new state flag. The old flag, which was designed by John Galtworthy, is being replaced by a new one that is more modern and more fitting for the state of New York.

The commission is also working on a new state coat of arms. The old coat of arms, which was designed by John Galtworthy, is being replaced by a new one that is more modern and more fitting for the state of New York.

GIRL ABOUT TOWN BY

Ann Marsters

We wonder if you realize that quite a number of women have sought service in the U. S. Navy or Marine Corps. But there are very few cases on record where they have been successful.

The World War, however, was an exception, and during the last few months of the war, several hundred women were voluntarily enlisted in the seagoing branches of the service. Which just goes to prove how a dangerous the gentler sex really is.

But those female sailors and marines were not given strictly masculine tasks. Their work was mostly clerical—and many of them proved to be so naturally efficient and so rose to the higher grades of enlisted service.

The war was the only occasion that the government freely admitted women into the naval service. There was a time when women were sternly punished if they attempted to join that masculine world.

In 1745, for instance, a woman smuggled herself aboard a schooner during the inter-colonial war. When she tried to sign up as one of the crew, she was identified—and all she received for her patriotism was a ducking at the end of a long pole, followed by a coat of tar.

Bay State Woman Served on "Ironides"

But there are other instances where women, effectively disguised, have served as either soldiers, sailors or marines.

Strangest of all is the case of Lucy Brewer, who succeeded in disguising her sex while she served for three years as a U. S. Marine aboard "Old Ironides," during the War of 1812.

She called herself George Brown—but later she married and became Mrs. West. After her marriage, she wrote a book about her adventures as a marine, and now a woodcut of her is among the treasures of the American Antiquarian Society of Massachusetts.

TO THE MONTH OF MAY Behold, on April's doorstep lies The month of valis and rain. A package tied with purple bows And wrapped in silver cellophane.

A little man went into a restaurant and ordered a snack which amounted to the odd sum of 23 cents. Handing the waiter a quarter, he proceeded to read his newspaper. The waiter returned with the two cents change, which he put down and stood by expectantly. So the patron handed him the two cents—and the waiter, in key tones, inquired, "May I ask what this is?"

"A tip," said the little man, looking over the top of his paper.

"Listen," said the waiter, "I've seen cheap-skates in my time. I've been given ten cent tips and five cent tips—but a two cent tip... never. That's no tip."

The patron went on reading, and the waiter went on talking.

"It happens to know the champion cheap-skate of this town and the lowest tip he ever gave me was three cents."

The little man folded up his paper and got up. "Shake hands," he said, "with the new champion."

The "King" Makes a Social Error

SPORTS NOTES: At a recent banquet which King Levisky attended in London, the chairman rose and said: "Gentlemen, the toast is the King." Thinking the toast was meant for him, Levisky remained seated and grinned from ear to ear. Johnny Weissmuller, swimming in a Hollywood tank the other day, equalled his own 50-yard free-style world record of 51 seconds. Jimmy Braddock won't fly in airplanes—or in anything else, for that matter. When Alfred G. Vanderbilt was elected a member of the Jockey Club in New York, he became the youngest member ever admitted to that organization.

JUNIOR BIRD MEN OF AMERICA

A Nationwide Organization Devoted

To American Youth in Aviation

By L. F. ROSS
Boston Wing Commander

Pupils in Boston's grade and high schools are not only joining the Junior Birdmen in large numbers with the aid of their instructors but are taking the opportunity to form flight squadrons.

JUNIOR BIRDMEN OF AMERICA

(Membership open to all boys and girls 10 to 21)

I wish to join the Junior Birdmen of America. I enclose a dime (well wrapped) for my gold wings and other membership materials.

My Age is Now (Give Your CORRECT Age)

Mail to Junior Birdmen, Boston American Wing, 100 Summer St., Boston, Mass.

Teachers and principals have consented to serve as adult sponsors of most of these, according to requests for charters, parliamentary rule books and officers' bars.

Members of the new Committee of Aviation in the Lincoln School were recently elected. The master, agreed to serve as their sponsor and to give such advice as they may need in conducting their activities and furthering their knowledge of aeronautics. This unit meets in the manual training department of the school and is commanded by Fred Winkler. The captain is Walter Platt, of 14 Tabella street, a bright-eyed, alert young birdman, who divides his chief interest between aeronautics and his dog, Prince, of which he is indistinguishably proud. Prince is a cross between a beagle hound and a cocker spaniel. He weighs 62 pounds, al-

tion from their teachers, their principals and their manual training instructors.

Junior Birdmen folders, Eagle test sheets and application coupons were distributed to the schools last month. This literature contains the latest information on the organization for air-minded boys and girls.

The teachers will be glad to give their pupils the information if their assistance is asked. Requests should be made during recess or at other periods when school classes are not in session.

Well on the way to forming an active squadron, Louis Valice of Room No. 20, Mary E. Cutler school, sends a list of 14 girls, including her own name, for admittance into the Junior Birdmen.

The girls are Norma Snow, Grace Saville, Ruth Connolly, Dorothy Stevens, Winifred Willet and Edith Zollo, Jamaica Plain; Frances Bennett, Roxbury; Frances Hughes, Elizabeth Harrington, Margaret Devlin, Catherine Becker, Barbara Baldwin and Nancy Melrose, Boston.

The new Black Falcon squadron of the William H. Taft school, Brighton, is planning a model plane contest to be held on Monday, April 26. The officers of the squadron are: Arthur Karsner, Allison, commander; Francis Brogan and Thomas Cossentino, captains; and Peter Scavilla, Alton, Bernard Spagnoli, Brighton; Maurice Corbett, Allston; Anthony Calo, Allston; and Neal Marshall, Allston.

"Bob" Cameron, of the Golden Propeller squadron, is reported having finished a Ryan Sporter model plane. All members are active in building and flying models. The squadron commander is Vincent Cahill. John H. Cahill is captain.

Radioland Reflections

If the Ben Bernie broadcast last night (WBZ) then a big "big pardon for pointing!" When the good, gray "Old Maestro" presides between 9 and 9:30, he will have some very entertaining people on hand to bring up the radio rear as his guests.

Ben believes the cast of "Wake Up and Live" should join him and have America get an idea what and when to watch.

cerning the acquisition of Ramona, the young styling piano charmer, who is the current special attraction with Lee Shelby and his orchestra at the Hotel Brunswick, likewise to be heard on the air from there (WAAB) beginning tonight.

Working in the subject of making a will, the "Husbands and Wives" turn (WEEI) this evening is based on controversy as to whether Mrs. By way of fair play, they'll discuss it also the other way around, that's at 8 P. M.

There's rural atmosphere planned by the Fred Astaire aggregation (WVAF) for tonight, meaning from 9:30 to 10:30 P. M. He to be built as a Tourist Camp impression, spotlighting Charlie Rutherford for the comedy as usual.

Longspeaker patrons who rather prefer the "Jack Oakie" College offering (WEEI) for their 9:30 to 10:30 P. M. diversion, can count on hearing Stuart Irwin as the Bachelor, Francis Green, Walter Kipper and Bobby Norris and his violin.

John Ruffner is joining the Al Johnson broadcast (WEEI) tonight, which has arranged a special dramatization of "Boy of Mine" for the highlights. If Mr. ad-

Expressed here before is the wonder if H. V. Kattenberg takes the same way to private occasions as he does during his "mike" ratiostat. It is reported he is a tourist commentator, explaining wonders of the distant Arabian desert to wide-eyed travelers grouped around him, which is easy to visualize while hearing him.

Criticism of the last few Eddie Cantor efforts is encountered apologetically among supporters. Eddie certainly has a gifted young artist there in young Bobby Green but the greeting between them just before Bobby sings is entirely too soft, sorry to stick.

Jack Benny came through again in fine fashion. His new material writers have been and heaps of the best, no mistake.

Frank Parker the tenor is aces vocalizing, and metaphors as misapplied as can be at matinee ceremonies. Racker of the "Rippling Rhythm" broadcast should seek out Lou Holtz, Frank Fayor George Jessel, they're all three funnishing good with Oakie this evening.

Expressed here before is the wonder if H. V. Kattenberg takes the same way to private occasions as he does during his "mike" ratiostat. It is reported he is a tourist commentator, explaining wonders of the distant Arabian desert to wide-eyed travelers grouped around him, which is easy to visualize while hearing him.

Criticism of the last few Eddie Cantor efforts is encountered apologetically among supporters. Eddie certainly has a gifted young artist there in young Bobby Green but the greeting between them just before Bobby sings is entirely too soft, sorry to stick.

Jack Benny came through again in fine fashion. His new material writers have been and heaps of the best, no mistake.

Fight Red Movies!

THE CAMPAIGN of the Knights of Columbus against Communist motion pictures is one in which all patriotic organizations must join. Motion pictures which infect the minds of Americans, particularly of American children, with Communist propaganda forfeit the right of exhibition.

They should be prohibited by official action in Massachusetts and all other States as they have been banned by Governor Earle in Pennsylvania.

The American Legion and the Veterans of Foreign Wars have already stepped into the front rank of this UNITED FRONT against RED FILMS.

The nationwide protest against immoral and prurient motion pictures STOPPED the demoralization of American youth through movies.

Patriotic citizens must protest as forcefully and effectively against the demoralization of our people through unpatriotic and Communist pictures.

It is the duty of the Government to stop such pictures. It is the duty of PATRIOTS to boycott them wherever they are shown.

Communists do not hesitate to boycott motion pictures or anything else that upholds American principles of patriotism.

Patriotic Americans must be as prompt to boycott the vehicles of Communist propaganda.

New York Day by Day By O. O. McIntyre

New York, April 20—Both the stage and screen seem to have been taken over this season by the wonder of the Broadway showman. The Shirley Temples, the Spanky MacFarlands, the Bobbys, the Broadway Zee Club, it is all a part of the new Broadway showman.

Indeed, there has recently been organized in New York the Broadway Zee Club, it is all a part of the new Broadway showman. The Shirley Temples, the Spanky MacFarlands, the Bobbys, the Broadway Zee Club, it is all a part of the new Broadway showman.

Edgar Bergen is solely responsible for the amazing revival of ventriloquism, an entertainment so dead that Rudy Vallee in presenting Bergen had to explain what ventriloquism was to the younger generation. Hadn't the agencies have more calls than they can fill, especially among night clubs.

Well Nurtured

Crime flourishes in America because our interest in the welfare of criminals is far more active than our interest in the VICTIMS of crime.

From the time a criminal is convicted, powerful influences are at work for HIS COMFORT.

Sentimentalists make his stay in prison as PLEASANT as possible.

The EASY PAROLE system makes it as SHORT as possible.

Maudlin sentiment which makes it easy for criminals to KEEP OUT of jail or to GET OUT of jail is our greatest CAUSE OF CRIME.

People aren't made like that. Real slaves don't like around waiting for us to discover them. Like prize packages in a Treasure Hunt.

We don't FIND our real selves, but we seek them out. We make and free ourselves by our own dream, deeds and determination.

We aren't made or freed by circumstances and surroundings. We make and free ourselves by our own dream, deeds and determination.

We aren't made or freed by circumstances and surroundings. We make and free ourselves by our own dream, deeds and determination.

We aren't made or freed by circumstances and surroundings. We make and free ourselves by our own dream, deeds and determination.

The Value of Teeth

The Human Side of the News
By Edwin C. Hill

Good King Wenceslaus of Bohemia once asked his court poet what occupation was most widely distributed among his subjects.

The poet promptly replied, "Dentistry." When he heard this, the king was so pleased that he ordered a large banquet to be given to the dentists.

And every body who approached the doors of the church that day stepped at the sight of the king's sufferer and told him how he could best be cured of his toothache.

Weight and wonderful must have been the advice offered by the sympathetic subjects of the king. The crowd probably included incantations to be said when the moon was full, black magic involving mandrake roots and black cat tails, talismans, incantations, and the like.

For in the days of yore, when the cure or kill the poor afflicted victim! For in the days of yore, when the cure or kill the poor afflicted victim!

The Value of Teeth

The Human Side of the News
By Edwin C. Hill

Good King Wenceslaus of Bohemia once asked his court poet what occupation was most widely distributed among his subjects.

The poet promptly replied, "Dentistry." When he heard this, the king was so pleased that he ordered a large banquet to be given to the dentists.

And every body who approached the doors of the church that day stepped at the sight of the king's sufferer and told him how he could best be cured of his toothache.

Weight and wonderful must have been the advice offered by the sympathetic subjects of the king. The crowd probably included incantations to be said when the moon was full, black magic involving mandrake roots and black cat tails, talismans, incantations, and the like.
